

Turbo-Bar-E Woltman Water Meter with Electronic Register

We are pleased to launch the new and innovative electronic register, which fits on all BERMAD meters and hydrometers.

- A. The new E-Register is a welcome addition to the mechanical register which is common used by all meter manufacturers.
- B. The E-register will fit as replacement on all BERMAD Meters and Hydrometers with a simple replacement action.
- C. The E-register has additional features such as flow rate indicator, flow direction indicator, two standard pulse outputs and a selection of different measurement units, metric or imperial.
- D. The E-register can be read by hard wire connection, and the last 1,000 points will be downloaded to your lap-top.
- E. The new E-register is now available for direct purchasing or as replacement kit for Turbo-Bar (fits 2016 models only).
